Rigid Rules To Be Established For Chain Installers

Permits or installation or removal of tire chains alongside state highways issued by division of highways to individuals or commercial concerns, are being strengthened in several respects, according to State Highway Engineer J. C. Womack.

Snow country travelers now will be advised in advance of the fee to be charged for the service, and will receive a receipt bearing the permit number of the installer. The fee may be displayed by a 12 inch by 24 inch sign affixed to the permittee's vehicle.

Also, chain men wishing to operate in a county which requires a business license in order to collect a fee, must present this license in order to be granted the permit. The permit indicates the counties in which it is valid.

Another revision provides that the permittee must remain in the area designated for installation or removal of tire chains, and is not allowed in the lanes maintained for through traffic.

"Motorists will experience greater convenience and benefit through these added provisions," Womack said. "Chain men," he added, "perform a valuable service for motorists, often under the most adverse conditions during storms and when the temperature is below zero. These men are, in fact, small businessmen, usually working in their time off, or filling out the lean months of their regular occupations."

Authorization for permit holders to install or remove tire chains at designated points is contained in the state streets and highway code.

Although these chain men are not employed by the division of highways ,they are allowed to work in its right of way because of their service to motorists. Fees are left to the discretion of the permittee; who is required to wear a round plastic badge "in plain sight" on the front of an outer garment at all times when on the right of way.

In commending the majority of chain men, Womack declared that most perform good work, and that only a few abuse their permit privilege. He also pointed out that the streets and highway code states that the division of highways "in issuing such permits shall assume no responsibility as to the competence or reliability of the permittee in performing such services". If a permittee is proven to violate state requirements, or applicable local laws, the division of highways will take action against him.

The majority of permits issued are for use on Interstate 80 and U.S. 50 in the Sierra-Nevada, but some are issued on other state highways where chain controls are required.

Airport Was Active During Thanksgiving

The Truckee airport was a busy spot during the Thanksgiving Day weekend when more than 30 transient airplanes were stationed there while the fliers participated in the winter sports activites throughout the area.

C. O. Brandt, airport district manager, said the count of planes did not include those permanently based here.

The field was completely freed of snow through the efforts of the contractor, Robert Sutton and the Cal-Nat manager, Lester Michaels and only normal conditions existed.

Brandt announced that the scheduled flights by the Sierra Pacific Airlines have been discontinued but that he is currently making efforts to have another line serve the area.

Truckee Man Dies In Car Crash Near Near South Home

Friends were shocked to learn of the death last Wednesday night near Traver, Tulare County, of Peter Joseph Zydner, 78, a resident of Meadow Lake community for many years who was killed in a four-vehicle accident on U.S. Highway 99.

Zydner, who owned his home here, spent most of the winter months in the Bakersfield area. He was here only recently and was apparently returning to his home in the south when the crash occurred.

Highway patrol officers said Zydner's car and a car driven by Alva Max Gredney, 56, of Sacramento, skidded sideways to avoid striking a pedestrian walking down the center of the highway and apparently intoxicated.

When the car ahead of Zydner skidded to a stop, Zydner applied his brakes and skidded into the front car just as a truck approached and literally jumped over the Zydner car, sandwiching the later against the Gredney vehicle and apparently killing Zydner instantly.

Funeral services were held Monday in Bakersfield for the Truckee man.

His wife died some nine years ago and Zydner lived alone since that time. He is survived by a son, Paul and two grandchildren in Los Altos.

Street Parking Is Banned In Storms

The annual problem of keeping the main streets in Truckee free of snow during and immediately after snow storms will not be tolerated this winter.

Each year vehicles are parked along the streets and left indefinitely making it impossible for plows to operate and creating a nuisance for shoppers.

Sergeant Roy Waters of the sheriff's department said that commencing with the next storm the highway patrol and his department will enforce a vehicle code which provided that vehicles obstructing snow removal equipment on public thoroughfares may be towed away and stored and a citation issued to the owner. The owner will also be billed for the towing and storage.

TWO MOTORISTS DIE TRAVELING IN AREA

Two motorists, traveling through Truckee, expired during the past week, apparently from heart attacks.

Albert Francis Wilson, 58, maintenance man for the Pacific Greyhound Company at Stockton, died while resting in his car near the state line at 2:30 a.m. Saturday. He and two companions, William Osburn and Eugene Denhard, were driving east when they stopped beside the highway to sleep.

Samuel Noah Mallard, 60, Salmon, Idaho, suffered a fatal attack in Truckee while he and his wife were traveling east on Wednesday, apparently to visit a daughter in Morgan Hill.

Both bodies were shipped by Truckee Colonial Mortuary.

SUNBEAMS

By WALTER M. BARRETT

It is vitally important to the entire region that the bond elections in the North Tahoe Public Utility District get a favorable vote next Tuesday. The very future of the district may hinge on the outcome. The bonds are necessary to provide finances for adequate sewer disposal and water systems. They will provide the local share of the major disposal system, with the state and federal government, through grants and low interest loans, completing the cost. Both Tahoe City and Truckee districts have voted bonds to finance their portion and favorable action by the North Tahoe District will give virtual assurance that the project, which has been given approval by all agencies can be established. Only through passage of the bond issue can the area be assured of maintaining the clarity and wholesomeness of Lake Tahoe guaranteeing the orderly growth of the communities involved. Proponents of the water bonds contend that their cost will be offset by the savings on insurance as well as providing for adequate domestic water and fire protection.

National Christmas Tree Is Decorated

The 65-foot George Washington national Christmas tree from the Nevada County forest of the Sierra reached Washington, D. C. in better condition than any previous Yule tree and the task of decorating it was started yesterday.

This is according to a telephone call from Dwight Barnes, executive assistant to Congressman Harold T. Johnson, Wednesday.

The tree is being installed in the ellipse between the white house and Washington monument and will be adorned by 2500 colored lights. An arch, containing 53 individual Scotch pines will be decorated with yellow, red and white lights. Other trees in the park will be similarly lighted with some 10,000 colored globes.

Park officials, Barnes said, were delighted with the tree which will be viewed by thousands between now and Christmas.

Extra Workers For Snow Removal In Area Given Okeh

At their meeting last week, members of the Nevada County Board of Supervisors adopted a resolution permitting the employment of six temporary snow removal workers to be recruited at $2.56 per hour from November through April to handle snow removal on the 60 miles of county roads in the Truckee-Donner area.

Although unable to attend last week's meeting Supervisor H. G. Loehr telephoned that the eastern end of the county requires additional personnel for snow removal, in competing with the division of highways and private industry.

Jack M. Meade, county director of public works, told the board that last year's scale of $2.34 an hour for operating snow removal equipment, failed to entice workers, although there was ample equipment available.

Loehr suggested that six men be employed on a temporary basis. Meade recommended that an opening wage of $2.65, graduated to $2.80 per hour be adopted. Currently there are four men in this area to handle the difficult tasks and if the additional six men can be employed during storms to work in two shifts of five men each for 12 hours during emergencies. The extra men would be available for routine jobs in the non-storm hours.

A suggestion that western county road employes be sent to this area for snow removal work at $16 a day expenses, plus wages, was quickly tabled.

Precipitation High As Storm Result

This area recorded a total of 8.06 inches of precipitatiin during the month of November, including 22 inches of snow which was lowered to three inches under the heavy rain Sunday and Monday. Normal precipitation for November is 3.10 inches.

The storm brought the season's total to 8.21 inches compared to a normal of 5.29 for this time of the year.

The forest service reports temperatures have been on the warm side with a high of 46 degrees monday and a low of 23 Wednesday morning.

The last storm brought 4.79 inches of precipitation in rain and snow.

TAHOE CITY — Precipitation for the month of November, recorded at the office of Darryl DeWalt at Tahoe City, was 6.15 inches. On Wednesday the level of Lake Tahoe was at 6225.73.

Leaving the gate at that time were 50 cfs of water and a dubious high temeprature for the past week was 51 degrees on November 29, a low of 12 degrees on the 24th.

Officers said Mrs. Rainwater had gone bowling with three other women and apparently was followed by Moore. He shot without warning and his victim slumped to the floor as other bowlers looked on horrified.

Bond Election To Be Held Tuesday At North Tahoe

KINGS BEACH — A large turnout of voters is expected to go to the polls in the North Tahoe Public Utility District Tuesday when they will decide two important issues.

The first will be a vote on the $1.9 million sewer improvement bonds and the second on the $510,000 water bonds, which will be voted upon separately, with both being of vital importance to the North End.

Curtis Hart, chairman of the bond committee, said that there will be no meters installed on the water lines but that the cost of the installation of the mains and fire hydrants will be offset by the savings in insurance, thus providing the new service without financial loss to the district.

The sewer bonds are designed to pay the district's share of a major disposal system which will be matched by state and federal loans and grants, Hart explained. This will guarantee continued purity and beauty of Lake Tahoe and provide for the growth of the district without fear of contamination of the lake.

The cost of the water bonds, Hart said, will be 31 cents on each $100 of assessed valuation. The lines currently are inadequate for serving both domestic users and for fire protection. The system, if approved will cover 95 per cent of the district with fire hydrants, the chairman said.

Questions concerning the bonds may be directed to the office of the district or members of the committee. Many of the most important questions were answered in last week's Sierra Sun by the committee.

The oil truck, driven by R. B. Scoville of Tahoe City, was traveling at a very slow rate of speed and the highway patrol said it was apparently an unavoidable mishap. The boy coasted through the intersection at Sugar Pine Road and Owl Lane and was caught by the left dual wheels of the truck before Scoville was aware of the accident.

DONNER DOINGS

BY MARCELLA CORRO

It seems rather quiet with the children back to school, after enjoying a long Thanksgiving vacation. Luckily the weather held so they could enjoy the skiing along with many tourists in the area. The resorts were filled to capacity and many had to go into Nevada for lodging. But what happened! The rains came and our snow is disappearing rapidly. No skiing in sight kids.

* * *

Did I hear someone say they will never look at turkey again. Well, it seems everyone enjoyed their Thanksgiving dinner with families and friends. I had a letter from Lena Bollock, former owner of Donner Pines Resort. She says "hello" to all, and misses the holiday spirit that seems to dwell here with the snow.

We are sorry to hear the Ken Ford family is leaving our acea. We hope you decide to come back next spring.

The Donner Lake Ladies Auxiliary enjoyed a steak barbecue at the Alpine Riverside at our last meeting. After dinner, the members finished the business at Vi White's home. We chose a new name, Donner Lake Community Club, since we are no longer a firemen's auxiliary. We will continue to raise monies for our Donner Lake sub-station as before. Our next social meeting will be our annual Christmas Party.

Georgiana King and I enjoyed a wonderful time in Hawaii. We toured through the sugar cane and pineapple fields, ate raw sugar can for 40 cents a stick. Visited Pearl Harbor, and went aboard the memorial on the Arizona. We enjoyed the hula dancers at Waikiki, where they perform every morning for the tourists. I visited the Fibreboard plant where they make corragated cartons and also the lovely Christmas gift boxes for most of Honolulus leading shops.

So we decided to fly to another island, but in a down pour we got stranded in the wrong airline office for several hours. We did finally get tickets on Hawaiian Airlines to Kaui, the Garden Island. It is truly a paradise.

We went aboard the S.S. Lurline and looked up Shirley Straub only to learn she was on a tour aboard the Monterey. We did manage to do these things between the downpours, so we didn't return with very good tans.

For this, you may never read my column again, but there are only seventeen shopping days left before Christmas.

Sorry, for the short news as I am writing on very short notice. Will have more next week.

More people attend amateur theatrical productions than baseball games.

About 65 million persons in this country have fluoridated water supplies.

SIERRA SKIING

BY VI WHITE

Thanksgiving vacationers had a marvelous time in the snow and skiing was considered great for so early in the season. Packed powder snow covered the ski runs. However the rocks began to show by the weekend, and they slowed down some of the hot-shots in places.

It's amazing to see some of these "hot-doggers" zoom down a slope without any concern for their fellow skier. It's always been a good practice to have a little pre-season exercises before tackling another year.

Heavenly Valley's Pheasant Slalom had to be cancelled due to poor conditions, there just wasn't enough snow for those fast turning racers. The course was set on the top of Gunbarrel Run and only the first competitors actually went through the gates before the race was called off.

Live pheasants were given out however, by drawn lots.

Squaw Valley's Turkey Trophy Race was held as scheduled with over 70 racers running the 30 gate giant slalom set on Siberia Bowl by Pepi Gassiott.

Lance Poulsen of Squaw Valley had the fastest time of the day, coming down the mountain between gates in 43.7 seconds. Henning Olberg of Sierra College and Auburn Ski Club was just one second behind. Bill Peterson of Vail, Colorado and Peter Klaussen of Squaw Valley tied for third place in the Class A event, 45.1.

Mike Mooney of Zuerileu Ski Club of San Francisco had the best time for women by racing the same course in 51.5 seconds.

She was followed by Tina West, 57.6 and Caryn West, 58.8, sisters from Sugar Bowl Ski Club in the Class B women's event.

Dan Mooney of Lake Tahoe Ski Club paced the Class B men. John Brown, Sierra College was second and Ron Rose of University of Nevada was third.

Two members of the Zuerileu Ski Club, Lisa Dapperich and Judy Pihl were Class C winners.

Hans Osterud, Lake Tahoe placed first in the men's Class C division, Jody Cafferata, Zuerileu, second and Bruce Beeman, Sierra College third. Class C racers ran a shorter course.

Race Chairman, Carson White presented the winenrs with frozen turkey's, second place brought a frozen duckling and third, a frozen chicken.

Over at Boreal Ridge the nordic skiers were completing their cross-country clinic with competition.

The four-kilometer course was won by Chuck Hardesty, Mike Gillen, second and Dennis Douglas, third.

Susan Ruhkala, Aleta Henrikson and Judy Cross all of the Lake Tahoe Ski Club made the two-kilometer run.

Warm rain hit the ski areas Monday and most resorts had to close. The pack melted considerably and is very wet, but it is hoped that temperatures will drop before the weekend and bring more snow to the slopes.

It is suggested that a call to your favorite resort be made before planning to ski to check on conditions.

Members of the Northern California and Nevada Winter Sports Writers Association will be meeting at Squaw Valley this weekend to view the newly enlarged lodge and check the ski slopes.

Report Shows State Behind In Drinking

Californians apparently aren't living up to their reputation as heavy drinkers, despite the fact that the state leads the nation in the total amount of liquor consumed, according to a special economic report prepared by Bank of America.

The total amount of distilled spirits consumed in California is the highest of any state in the nation, according to the bank's "Outlook for Distilled Spirits report, but Californians rank only tenth among other states in per capita consumption.

The average Californian consumed only about 2 gallons of distilled spirits during 1965, well above the national average of 1.53 gallons, but not as much as Nevada, where heavy tourism may have helped account for the average 3.84 gallons; Alaska with 2.88 gallons, and New Hampshire with 2.86 gallons.

Nationally, the Bank of America report estimates that total consumption will increase to a record high of 310 million gallons, up five per cent from 1965's total of 293 million.

Most of this increase however, will be from imported and 'light" spirits, rather than the more traditional American whiskeys, the report points out.

Bourbons and blends, it estimates, will for the first time account for less than half of all distilled spirits consumed in the United States, a trend that started several years ago. An increasing share of the market will be taken over by imported Scotch and Canadian whiskey, and by "white" spirits: gin and vodka.

This trend, the report states, reflects the preferences of increasing numbers of youthful drinkers who seek a "light' 'taste in their liquor In addition, it estimates, the large number of young, inexperienced drinkers is likely to bring about a sizeable increase in the sale of bottled cocktails.

Vodka, which was practically unknown in the United States 15 years ago, probably will overtake gin in popularity during 1966, the Bank of America report predicts.

Price changes also can be expected in many states, partly as the result of recently enforced New York State law which requires distillers to affirm that their wholesale bottle and case prices of each branch are as low in New York as anywhere in the country. Because of the importance of the New York market, the result is expected to be an identical pricing scale throughout the United States. So far, some wholesale prices in New York have been reduced, while in other states prices have increased.

"The effect of the New York Law on California prices is presently under study as distillers review their wholesale prices," the report states.

"No conclusions as to price movements have yet been reached."

With friends like Bob Watson who needs enemies?

Bob's one of the best drivers you'll ever meet. He's never had an accident—never even had a parking ticket. But even the best drivers make mistakes once in a while. And when they do, you've got to be ready for it—by driving defensively.

When you're passing another car, defend yourself by letting the guy ahead know you're about to pass. Use your horn or lights. And make sure no one's trying to pass *you* at the same time!

Avoid trouble by anticipating it and you won't end up on the receiving end of some other guy's goof. Not even if he's your best friend!

Watch out for the other guy!

LAKE ECHOES
BY BETHEL

Thanksgiving was indeed a special day to many this year and to Bethel Van Tassel and son Pieter, especially. To Walnut Creek to visit son, Jan, wife, Janene, and their son, Jonothan, to Mt. View for dinner with Pieter's great-aunt, Katherine Merrill, of Oakland and brother, Richard and wife, Dorothy.

A short chat with the Leon Wheatleys of Los Altos Hills, and back through the freeway maize and traffic to Oakland. Stopped to visit the Morman Temple there which is outstanding but, in our opinion, cannot compare with the Salt Lake Tabernacle.

Visited with Paul and Sally LaFrance of San Francisco, annual Tahoe Vista vacationers, Gladys Park and Phyl Polkinghorn the latter of Australia; cousin, Sheral Dependener whose daughter, Lee Ann Pearson has become an outstanding San Francisco model; Sears friends from bygone days, Mary Switzer, Rosine Gordon, Afton Page and Orv Schmidt. Chatting and catching up with past and present news with former Tahoe summer resident, Pat Montandon, was interesting.

Saturday found the travelers back in Reno where the hectic pace of freeways, traffic, and general confusion were happily lacking. Also missed much traffic and the weather was perfect. Stopped in the friendly village of Truckee for a quick snack before returning home to an uninteresting larder after the feasts of the past several days. Hope everyone had as enjoyable holiday.

• • •

Monday night surprise phone call from Harry and Vivian McIntyre and daughter, Cathy, of Tahoe Vista, who were Renoiting, decided Bethel and Pieter to join them for dinner downtown. A fun evening exchanging family news and chitchat in general.

• • •

The Fireside Room of the Kings Beach Methodist Community Church was the scene of a Tuperware party given by Mary Wilson on Friday night. Joining in the fun of the evening were Faye Deane, Pearl Draney, Betty Mulnix, Laura Wilson, Noreen Marx, Sally Dowling, Betty Snead, Vera Daegling. Coffee and refreshments were served by the hostess.

• • •

Thanks are extended to all who donated, contributed and attended the WSCS very successful bake sale held in Kings Beach under the chairmanship of Louise Anderson, assisted by Pearl Draney.

• • •

Eda Judy of Kings Beach visited her daughter, Anita Bills in Sacramento last week. Then they went to Grants Pass, Oregon to Eda's daughter, Carol and husband, Gene Howard, for Thanksgiving.

Business success depends upon people — a market for the product or services offered. The product, or service must fill a need or there is no market. Sounds like a simple formula for success, doesn't it? But, there's more.

Value-wise consumers develop the habit of taking their business to the merchant who offers quality merchandise, quality service. It follows naturally that the merchant who builds a better business does so because he serves his customers well.

In a nutshell, this supports our contention that your best bet, whatever your needs, is to look first to the established business and service firms in this community.

You'll always be glad you did.

Class Activities In School

TAHOE LAKE SCHOOL

Fifth Grade, Mrs. Diurni — Speaking of "would you believe?" we survived putting on a P.T.A. program! A good job was done by all the students and no giggles from the girls. Our geography experts eon a panel discussion were Robert Fiedler, Chris Onorato, Janine Johnston, Monique McManus, Lynnel Bechdolt and Mike Everson. perts on a panel discussion were yummy cookies were Susie Kelley, Sandy Vanni, Lindy Lewis, Lois Smith. Dwight Evans carried in the flag. Ever thought of attending your local P.T.A.?

The theme of last week's language arts program was Thanksgiving, i.e. reading history of Thanksgiving, Miles Standish, etc. Writing Thanksgiving stores. So . . . during a class discussion of what we could learn in 1966 from peoples actions in 1620 the teacher asked just that. (Teacher's thoughts -goals, ideas, work hard, strive, put up with things — ideals of freedom, etc.) Well — one student hit it — "if we did'nt have the Pilgrims we wouldn't have a day for a big turkey dinner." Amen.

Seventh Grade, Mr. Barben — The third school month has ended and the students have now completed a study of classical history, the dark ages and the renaissance. We now are planning a study of nationalism as we look into each of the European nations. We begin with France, first looking at its history and geography, then using our skills we will probe into problems of the country today and how they affect us.

With the Christmas season nearing, students will begin many art projects. They are also starting an oral project of writing and producing their own plays. These will be given the last day of school before the holidays.

Some students are engaged in making for display some feudal castles illustrating the way of life in the dark ages. These students are Shaun Bryan, Greg Collins, Garth Collins, Gary Modlin and Eddie Conners.

Other students who enjoy mathematics are doing self study in simple algebra. These students are Shaun Bryan, Pam Wightman, Vickie Whittington, Jeri Sampson, David Kahn, and Nancy Kelley.

Students worked on two excellent bulletin boards in the class. They were Sue Lewis, Mike Davis, Nancy Kelley, and David Champion did the renaissance, and Sheryl Walling and Bev Freeland worked on a language board showing French and Spanish languages.

We have taped the class in choral reading so students can learn timing in reading. The tapes so far are very good. Students getting a hundred were Eddie Conners, Charlene Keehn, Bev Freeland, Bene Lusky, Jeri Sampson, Pam Wightman, Sheryl Walling, Garth Collins, Shaun Bryan, Vickie Whittington, Debbie Dutton, David Kahn and Janna Jankowski.

The class sends a get well message to Ed Stormer who had his tonsils removed.

Eighth Grade students of Mr. Antonucci'se class have been doing a great job in learning American History.

Several students are working on some very interesting projects. Reenacting the battle of the civil war are Gretchen Stanford and Anne Dodge. Doing scale models of life in the north are Sue Anderson, Julie Gehlert and Patty Ely. Life in the north is going to be done by Kathy Humphreys, Carol Pelletier and Cindy Sonny. Making canal boats, river steamer and flat boats are Larry Mullins, Randy Sprague, Steve Cross and Jim McKinnon. Doug Martin is doing a scale model of a factory.

New Show To Start Tuesday at Lodge

CRYSTAL BAY — Besides the sparkling waters on the North Shore of Lake Tahoe, Nevada Lodge audiences have enjoyed a two-week treat — feasting upon the colorful melodies and songs rendered by the Naida and Nano Trio.

North Lake Tahoe's sparkling waters took on an Hawaiian appeal, as the three Hawaiians entranced Topaz throngs with unique Hawaiian music and dancing. With a repertoire that extends far beyond traditional Hawaiian songs, the Naida and Nano Trio established themselves as solid favorites on the Tahoe-Reno-Las Vegas circuit. Exciting dance interpretations, by lovely Naida, complemented driving guitar mastery by Nano; and Mickey Lyman's amazing virtuosity on the ukelele brought that instrument into new prominence.

The Hawaiian trio closes Sunday night. Closing Monday are the popular Senators — five Jamaicans whose Calypso rhythms have charmed Nevada Lodge audiences in the past. A steel drum is featured in the group — the only one of its kind, according to the leader Al Moore.

Coming to the Nevada Lodge stage Tuesday night is the Buddy La Pata duo: versatile piano artistry, rhythms and stimulating wit. The La Pata act will be featured through December 26.

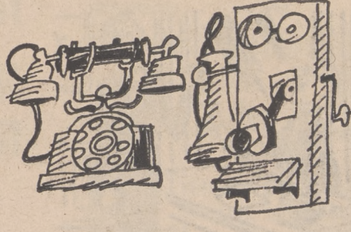
If your decorating dream is to use the antique phone you found in Great Aunt Agatha's attic or the one you found in a local store, the chances are we can hook it up and make it talk for you. We've designed standard operating parts which can be put in many of these decorator phones to assure you good telephone service. Just contact the Business Office. We'll check your phone and, if the standard parts will fit without modification, we'll install the parts and hook it up. There's a one-time charge of $10, but no extra monthly charge for the decorator phone—only the regular monthly charge for main or extension service.



If the standard parts do not fit your phone, we'll modify it, install the parts and hook it up. In this case, the one-time charge is $25. Although you own and maintain the exterior housing of your decorator phone, we'll continue to maintain the internal telephone parts just as we do with our regular telephones. We have given the dimensions of our standard parts to some manufacturers of "antique" and other decorator phones to help them make phones in which our standard parts will readily fit.

LAKE ECHOES
BY BETHEL

Thanksgiving was indeed a special day to many this year and to Bethel Van Tassel and son Pieter, especially. To Walnut Creek to visit son, Jan, wife, Janene, and their son, Jonothan, to Mt. View for dinner with Pieter's great-aunt, Katherine Merrill, of Oakland and brother, Richard and wife, Dorothy.

A short chat with the Leon Wheatleys of Los Altos Hills, and back through the freeway maize and traffic to Oakland. Stopped to visit the Morman Temple there which is outstanding but, in our opinion, cannot compare with the Salt Lake Tabernacle.

Visited with Paul and Sally LaFrance of San Francisco, annual Tahoe Vista vacationers, Gladys Park and Phyl Polkinghorn the latter of Australia; cousin, Sheral Dependener whose daughter, Lee Ann Pearson has become an outstanding San Francisco model; Sears friends from bygone days, Mary Switzer, Rosine Gordon, Afton Page and Orv Schmidt. Chatting and catching up with past and present news with former Tahoe summer resident, Pat Montandon, was interesting.

Saturday found the travelers back in Reno where the hectic pace of freeways, traffic, and general confusion were happily lacking. Also missed much traffic and the weather was perfect. Stopped in the friendly village of Truckee for a quick snack before returning home to an uninteresting larder after the feasts of the past several days. Hope everyone had as enjoyable holiday.

• • •

Monday night surprise phone call from Harry and Vivian McIntyre and daughter, Cathy, of Tahoe Vista, who were Renoiting, decided Bethel and Pieter to join them for dinner downtown. A fun evening exchanging family news and chitchat in general.

• • •

The Fireside Room of the Kings Beach Methodist Community Church was the scene of a Tuperware party given by Mary Wilson on Friday night. Joining in the fun of the evening were Faye Deane, Pearl Draney, Betty Mulnix, Laura Wilson, Noreen Marx, Sally Dowling, Betty Snead, Vera Daegling. Coffee and refreshments were served by the hostess.

• • •

Thanks are extended to all who donated, contributed and attended the WSCS very successful bake sale held in Kings Beach under the chairmanship of Louise Anderson, assisted by Pearl Draney.

• • •

Eda Judy of Kings Beach visited her daughter, Anita Bills in Sacramento last week. Then they went to Grants Pass, Oregon to Eda's daughter, Carol and husband, Gene Howard, for Thanksgiving.

Business success depends upon people — a market for the product or services offered. The product, or service must fill a need or there is no market. Sounds like a simple formula for success, doesn't it? But, there's more.

Value-wise consumers develop the habit of taking their business to the merchant who offers quality merchandise, quality service. It follows naturally that the merchant who builds a better business does so because he serves his customers well.

In a nutshell, this supports our contention that your best bet, whatever your needs, is to look first to the established business and service firms in this community.

You'll always be glad you did.

Class Activities In School

TAHOE LAKE SCHOOL

Fifth Grade, Mrs. Diurni — Speaking of "would you believe?" we survived putting on a P.T.A. program! A good job was done by all the students and no giggles from the girls. Our geography experts eon a panel discussion were Robert Fiedler, Chris Onorato, Janine Johnston, Monique McManus, Lynnel Bechdolt and Mike Everson. perts on a panel discussion were yummy cookies were Susie Kelley, Sandy Vanni, Lindy Lewis, Lois Smith. Dwight Evans carried in the flag. Ever thought of attending your local P.T.A.?

The theme of last week's language arts program was Thanksgiving, i.e. reading history of Thanksgiving, Miles Standish, etc. Writing Thanksgiving stores. So . . . during a class discussion of what we could learn in 1966 from peoples actions in 1620 the teacher asked just that. (Teacher's thoughts -goals, ideas, work hard, strive, put up with things — ideals of freedom, etc.) Well — one student hit it — "if we did'nt have the Pilgrims we wouldn't have a day for a big turkey dinner." Amen.

Seventh Grade, Mr. Barben — The third school month has ended and the students have now completed a study of classical history, the dark ages and the renaissance. We now are planning a study of nationalism as we look into each of the European nations. We begin with France, first looking at its history and geography, then using our skills we will probe into problems of the country today and how they affect us.

With the Christmas season nearing, students will begin many art projects. They are also starting an oral project of writing and producing their own plays. These will be given the last day of school before the holidays.

Some students are engaged in making for display some feudal castles illustrating the way of life in the dark ages. These students are Shaun Bryan, Greg Collins, Garth Collins, Gary Modlin and Eddie Conners.

Other students who enjoy mathematics are doing self study in simple algebra. These students are Shaun Bryan, Pam Wightman, Vickie Whittington, Jeri Sampson, David Kahn, and Nancy Kelley.

Students worked on two excellent bulletin boards in the class. They were Sue Lewis, Mike Davis, Nancy Kelley, and David Champion did the renaissance, and Sheryl Walling and Bev Freeland worked on a language board showing French and Spanish languages.

We have taped the class in choral reading so students can learn timing in reading. The tapes so far are very good. Students getting a hundred were Eddie Conners, Charlene Keehn, Bev Freeland, Bene Lusky, Jeri Sampson, Pam Wightman, Sheryl Walling, Garth Collins, Shaun Bryan, Vickie Whittington, Debbie Dutton, David Kahn and Janna Jankowski.

The class sends a get well message to Ed Stormer who had his tonsils removed.

Eighth Grade students of Mr. Antonucci'se class have been doing a great job in learning American History.

Several students are working on some very interesting projects. Reenacting the battle of the civil war are Gretchen Stanford and Anne Dodge. Doing scale models of life in the north are Sue Anderson, Julie Gehlert and Patty Ely. Life in the north is going to be done by Kathy Humphreys, Carol Pelletier and Cindy Sonny. Making canal boats, river steamer and flat boats are Larry Mullins, Randy Sprague, Steve Cross and Jim McKinnon. Doug Martin is doing a scale model of a factory.

New Show To Start Tuesday at Lodge

CRYSTAL BAY — Besides the sparkling waters on the North Shore of Lake Tahoe, Nevada Lodge audiences have enjoyed a two-week treat — feasting upon the colorful melodies and songs rendered by the Naida and Nano Trio.

North Lake Tahoe's sparkling waters took on an Hawaiian appeal, as the three Hawaiians entranced Topaz throngs with unique Hawaiian music and dancing. With a repertoire that extends far beyond traditional Hawaiian songs, the Naida and Nano Trio established themselves as solid favorites on the Tahoe-Reno-Las Vegas circuit. Exciting dance interpretations, by lovely Naida, complemented driving guitar mastery by Nano; and Mickey Lyman's amazing virtuosity on the ukelele brought that instrument into new prominence.

The Hawaiian trio closes Sunday night. Closing Monday are the popular Senators — five Jamaicans whose Calypso rhythms have charmed Nevada Lodge audiences in the past. A steel drum is featured in the group — the only one of its kind, according to the leader Al Moore.

Coming to the Nevada Lodge stage Tuesday night is the Buddy La Pata duo: versatile piano artistry, rhythms and stimulating wit. The La Pata act will be featured through December 26.

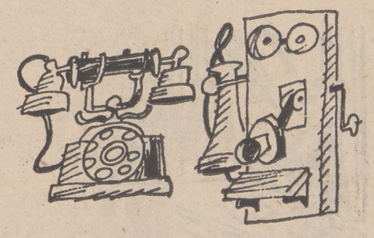
If your decorating dream is to use the antique phone you found in Great Aunt Agatha's attic or the one you found in a local store, the chances are we can hook it up and make it talk for you. We've designed standard operating parts which can be put in many of these decorator phones to assure you good telephone service. Just contact the Business Office. We'll check your phone and, if the standard parts will fit without modification, we'll install the parts and hook it up. There's a one-time charge of $10, but no extra monthly charge for the decorator phone—only the regular monthly charge for main or extension service.


If the standard parts do not fit your phone, we'll modify it, install the parts and hook it up. In this case, the one-time charge is $25. Although you own and maintain the exterior housing of your decorator phone, we'll continue to maintain the internal telephone parts just as we do with our regular telephones. We have given the dimensions of our standard parts to some manufacturers of "antique" and other decorator phones to help them make phones in which our standard parts will readily fit.

False Alarm Brings Out Valley Firemen

SQUAW VALLEY — At 9:45 Saturday night, thirteen members of the Squaw Valley Fire Department rolled to an alarm on Sharon Drive. Eleven of the thirteen were volunteers and off-duty firemen. These men left their homes, their families, and weekend guests, in the cold of night to aid someone in trouble — to fight a fire.

Squaw Valley was jammed with weekend guests and merry-makers. The streets were icy making driving difficult. The cars of the weekend guests were thickly parked throughout the valley. This made the fire response of the heavy fire truck that much more difficult and hazardous.

It was a false alarm.

Turning in a false alarm is the most ridiculous, the most infantile, the most malicious of all practical jokes. Statistics show more firemen are killed going to a fire than fighting a fire. Statistics show many firemen killed and maimed each year as they are responding to false alarms. Fire equipment is wrecked.

"We wil lspare no effort in apprehending people who turn in false alarms," sals Chief Butler of Squaw Valley Fire Department. "Our men are doing a great job but they should not have to risk their lives responding to someone's practical joke. We all love our jobs and are dedicated to protecting life and property of the citizens. We urge everyone not to risk our lives by turning in a false alarm."

Students Rewarded At Optimist Meet

TAHOE CITY — Eight students from Truckee, Tahoe City, Kings Beach and Incline Village elementary school were signally honored recently when they were awarded trophies for outstanding records in scholarship, citizenship and leadership. The awards were made by the Optimist Clubs of Tahoe City and North Lake Tahoe in recognition of Optimist International Youth Recognition Week.

Students receiving the trophies were Debbie Jellin and Tina Bequette of Truckee; Ann Dodge and Mitch Packard of Tahoe Lake; David Plevel and Bonnie Weber of Kings Beach; and Patty Smith and Diane Hansen of Incline Village. They are eighth graders in their respective schools .

A large audience witnessed the giving of the awards with Bill Ellisen of Kings Beach and the Tahoe Truckee High School, past District Governor of Optimist International, presiding at the ceremony. Keynote speaker of the evening was Greg Engelhard of Incline Village who has long been active in youth work in several communities.

The dinner was held at the Lake Tahoe Hotel in Incline Village with Bob Rueckheim of Incline Village and Gene Cline of Tahoe City making arrangements for the affair. The group enjoyed the folk singing of Maryann Atkinson, Karel Sauby and Betty Shively of Truckee.

Tree Farm Founding Observed By Firm

A silver tip Christmas tree was presented by Fibreboard Corporation to the Truckee-Donner Chamber of Commerce for the benefit and enjoyment of this community.

This tree is one of thousands of Christmas trees that is presented throughout the west this holiday season in commemoration of the 25th anniversary of the founding of the Tree Farm movement in the west in 1941.

There are over 15 million acres of timber lands in the west, representing over 2,400 certified tree farms, that are dedicated to growing continuous crops of trees, and protecting them from fire, insects and disease.

Western tree farms are providing, year after year, abundant tree crops to supply the nation's needs for forest products including an ample number of fragrant Christmas trees. These trees are grown under a planned program that insures more healthy and vigorous trees for the future.
